SPRING OF 1892.

## WHOLESALE CATALOGUE

—OF THE—

# MOUNT HOPE NURSERIES

ROCHESTER, N. Y.

ELLWANGER & BARRY, PROPRIETORS.

ESTABLISHED 1840.

We take pleasure in presenting herewith our Semi-Annual Wholesale Catalogue for the Spring of 1892.

The stock now offered is of excellent quality in all respects, and well worthy the attention of Dealers, Nurserymen and Planters.

The extent and completeness of the collections of both Fruit and Ornamental Departments of these Nurseries; their reputation for accuracy which is scrupulously maintained; the long experience of the Proprietors (over 50 years) and their Assistants, in digging, packing, shipping, and in every detail of Nursery work, are well worthy the consideration of purchasers. No pains will be spared to ensure satisfaction to those who favor us with their orders.

### THE PACKING SEASON.

*The Spring packing and shipping season usually opens here about the 1st of April and continues into the month of May. The planting season is not regulated by any particular month or day, nor by the state of vegetation where the planting is to be done, but by the condition of the trees to be planted. Hence, trees can be sent with safety from Rochester to localities several degrees south, even if they do not arrive until after the ordinary transplanting season in that locality has passed.*

### DIRECTIONS FOR SHIPPING.

*Parties ordering are requested to state explicitly the mode of conveyance by which they desire their trees forwarded. When no route is designated, we exercise our judgment; but in no case do we assume any responsibility after the packages are shipped, unless for our own mistakes. When losses occur by detention, claims should be at once made on the forwarders.*

 **Attention is particularly directed to our offer of Budded Roses and Home Grown Peaches; a very large and fine stock of both. Prices reasonable.**

### CONDITIONS OF SALE.

FIRST—The articles on the following list will be furnished at the annexed prices, only when the quantity specified shall be taken. *Five hundred* will be furnished at the *thousand rate*, fifty at the *hundred rate*, and six at the *dozen rate*. *In no case will we supply long lists of selected varieties, two or three of each of either Fruit or Ornamental Trees or Plants, to Nurserymen or others at wholesale rates, but at such a discount from retail prices as circumstances will justify.* Ordinarily a discount of from 20 to 33½ per cent. from retail single prices will be allowed on such lists. *Special rates given on very large orders.*

SECOND—In furnishing assortments of Fruit Trees, as well as Ornamental Trees, Shrubs and Plants, at the prices in this Catalogue, we reserve the right of selecting varieties, but these will be of leading popular sorts, and in all cases we will give the purchaser his choice as far as practicable.

THIRD—The terms of payment, CASH, or satisfactory security on delivery or shipment of trees.

*The prices annexed do not include packing, for which a moderate charge, covering cost, will be made; but no charge is made for the conveyance of packages from the Nursery to the Railroad Station.*

### CATALOGUES.

The following Catalogues are sent, as soon as issued, to all customers whose names are on our books, and to all others who may apply :

**NEW GENERAL CATALOGUE of Fruit and Ornamental Trees, Shrubs, Evergreens, Small Fruits, Clematis, Hardy Herbaceous Plants, Roses Etc.,** containing brief hints on transplanting, distances for planting the various trees, and other useful information. The edition just published has been prepared with great care ; the descriptions are complete and correct and the illustrations are mostly from photographs of specimens in our collections. We trust that it will serve not merely as a price list, but will prove a useful hand book.

**CATALOGUE OF POT-GROWN STRAWBERRY PLANTS,** issued in July.

**WHOLESALE CATALOGUE OR TRADE LIST,** issued semi-annually.

# FRUIT TREES, SMALL FRUITS, Etc.

NOTE.—In filling orders at the prices annexed, we reserve the right of selecting the varieties, but will consult the wishes of our customers as far as we can. Orders for select varieties will be charged at special rates. Such articles as are not enumerated in this list can be supplied in retail quantities only.

## ROSES.

We make the culture of the Rose a specialty. Our list of varieties has been carefully reduced so as to include only the very best; we annually import the desirable novelties, and carefully weed out such as are not thoroughly good and distinct. *For this spring we have a superb stock of Hybrid Perpetual or Remontant Roses, 1 year budded on Manetti, and 2 years on own roots; the plants are in the finest condition. This is a rare opportunity for florists and others to secure extra fine plants. Orders should be sent in early to secure the varieties wanted.*

THOSE MARKED \* ARE ALL GROWN IN 4-INCH POTS.

## PHLOXES.

Our collection embraces the finest varieties of which the following are among the most distinct and popular. Our plants are all from open ground and are extra fine

**Lothair**—Rich salmon color, crimson eye; very fine.

**Premier Ministre**—Rosy white, center deep rose.

**Queen**—Pure white; very fine.

**Richard Wallace**—White, with violet center.

**Vierge Marie**—Pure white; very large.
